BOOK SYNOPSIS

These hard-hitting, heart-rending pieces, collected from L.A. Weekly, cover the continents shadow from Brooklyn to Texas to Hollywood - & across to the shores of the Gulf War. More than comments on the 90s scene, they chronicle a civilization in agony. As media conglomerates & correct academic experts dominate American discourse, Venturas clear, no b.s. language, his ancient Sicilian passion & his courage to speak out have become crucial to the health of the body politic. "Michael Venturas essays brilliantly diagnose our fin-de-siecle. These concise, elegant & somehow final testimonies are the work of an uncompromising spirit. I was happy to share the wonder of his discoveries & felt the burden & strangeness of our generations peculiar job as the millennium roars to a close."--Andrei Codrescu.
